Dear Lavesh,

Greetings from Edureka.

We understand that you would like to extend the due date for the assignment/ project.

As per your request, we have extended the deadline of your project and the pending assignments. We would request you to submit your assignments/ project by 30th May 2020.

Since the due date was extended manually, it will not reflect in your LMS. Also, it will not impact your grade. You can submit the project and all pending assignments solutions and attempt the quizzes, if any on or before this new deadline and the grade will be updated automatically.

Please note that you need to submit all pending assignments (case study) and then the project solution to us for review. Kindly ignore the notifications related to this submission in your LMS. Post submission, the grade would be updated by the system.

You may reply to this email if you have any further queries. We will be happy to help.

Based on your experience with us, we would request you to share your feedback by clicking on the below smileys.

Regards,
Aniket Behera

I was a student Angular certificate Training (from 1 feb 2020 to 8th Mar 2020).
I was told that last date to Submit my certificate project is 22nd March. But its showing that today is my last day to Submit project.
Can you please clarify on this?

Please let us know your opinion on our support experience.
